PROJECT

1 ONLINE FOOD ORDERING SYSTEM

Completed capstone project in online food ordering system .With my teammates as in this capstone project my role was to make a attractive frontend page as, I have used **(HTML,CSS,BOOSTRAP AND JAVASCRIPTS)**. The main motive of the project is to develop an online food ordering system that can handle all the restaurant's day-to-day operations. Our technology integrates seamlessly with all restaurants to ensure correct order management, customer satisfaction, and employee communication.

2 TINGDOG (clone)

Completed this simple project(TINGDOG) .In this I have just used **(HTML,CSS,BOOSTRAP)**. The main motive of this application is to find variety of dog near. Managing all the operations on a day -to -day basis so the customers doesn't have to worry. It is our goal to ensure customers satisfaction, correct order management, within every aspect through seamless integration of our technology
